

We Pray ...

We celebrated **Catholic Schools Week**, starting always with **prayer**. All of our 3K—8th grade students traveled to the Cathedral, prayed, and met Bishop Haines (a fellow Charger). The rest of the week we focused on our faith, knowledge and service, as well as building our community and friendships across all grades.

In January, we also welcomed **Archbishop ListECKi** to lead one of our school Masses. We all loved hearing more about his role in our archdiocese and giving him a tour around our school.

As we prepare for Easter, our classrooms focus on growing closer to Jesus, in thoughts and actions. Below are some examples of the beautiful artwork that lines our halls.

CATHOLIC SCHOOL

3K through 8th grade

We Learn ...

As we roll out Project Lead the Way (PLTW) within our science / STEM curriculum across our school, our kids are working together planning, designing, building, engineering, and testing their work. Some recent projects include:

- * 1st grade engineers began using computer code to create videos on their iPads.
- * 3rd grade is working on the Science of Flight. They designed gliders on iPads, choosing wings, stabilizers, or fuselages. They worked in teams to then built and tested their own gliders.
- * 4th grade is exploring potential and kinetic energy with the pendulums that they built using Vex Kit pieces.
- * 7th grade is studying a new Science of Technology Unit, which includes students acting like a chemist & chemical engineer to make ice cream, glue, and clean up an oil spill.

Our athletic teams have grown in unity and success in volleyball and basketball. Congratulations to our 8th grade boys volleyball team who won the 2016 Seton Volleyball Championship! Also, congratulations to our 8th grade boys and girls who were once again invited to the Padre Serra Basketball Tournament! We are so proud of all of our teams and very grateful for our volunteer coaches!

Other great updates ...

- **Thank you to all families who visited us during our Open House on January 29th!** We loved hosting you! If you would like a tour of the school, please call the school office at 262-786-7331.
- **We are continuing to grow!** Next school year we are adding another section to our 3K program on Tuesdays & Thursdays. In the fall we will be able to welcome 30 new 3-year olds into our school!

We Serve ...

Led by our Student Council, our families have collected over **\$2,235** through March for various charities including; Haiti Food Pak, the Alzheimer's Association, Christmas Food Baskets, Soles for Education, and Lung Force. In addition, we provided and delivered gifts and winter gear for nine families in Waukesha County for Christmas. Delivering these gifts allowed us to bring joy and warmth into the hearts of these families who needed extra assistance.

Love God.
Love Others.
**Transform
Our World**

Chosen by our student council, the 2016-2017 school theme which guides us:
I can do all things through God who strengthens me. (Philippians 4:13)
